

A better way to survey

Unlocking greater earnings potential for RICS Surveyors, while improving their work-life balance.

Peer | King
Surveyors®

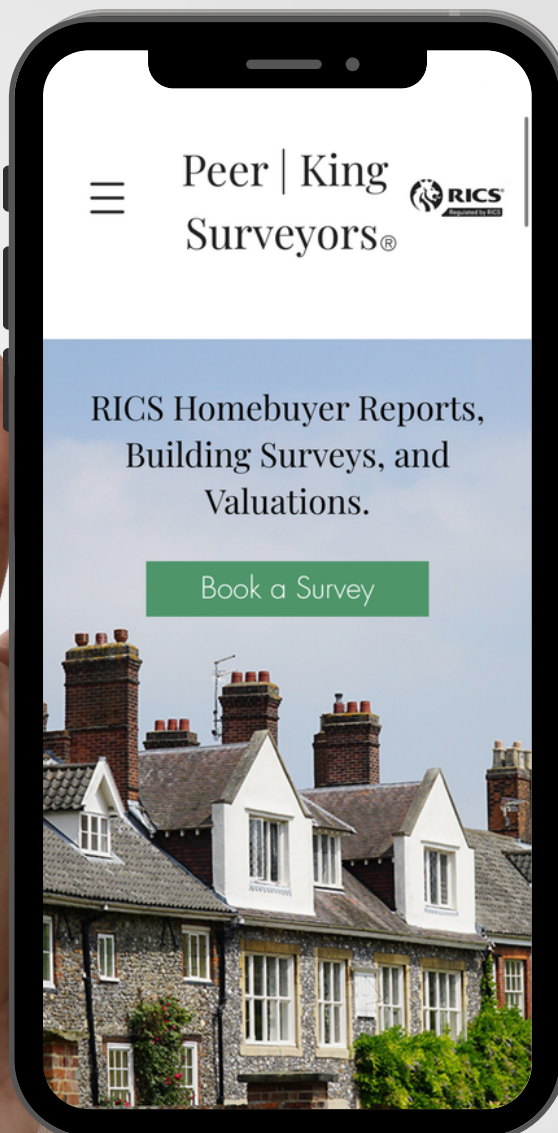

Who are we?

Peer | King Surveyors is a forward-thinking residential surveying practice, founded and head-quartered in Norwich and now growing across the UK. Built on technical expertise, exceptional client care, and a clear commitment to quality, we support homebuyers by acting as their Buyer's Champion - helping them make informed decisions, reduce uncertainty and avoid costly mistakes.

With an established reputation, consistent 5-star Google reviews and a proven operating model, Peer | King Surveyors is now entering an exciting phase of national expansion. We are awarding licences to ambitious AssocRICS and MRICS surveyors who want to operate independently, while benefiting from the support, systems, and credibility of an established surveying brand.

Our model is built around quality over quantity. By combining efficient processes, smart technology and outstanding back-office support, we enable our surveyors to deliver high-value work without the pressure of excessive workloads. As a Peer | King licensee, you can use your existing qualifications and experience to build a more profitable, flexible and sustainable surveying career - with lower risk and greater support than going it alone.

Why join us?

Operating as a Peer | King Licensee Surveyor combines the flexibility and earnings potential of self-employment, with the security of working for a firm and having a team behind you...

Higher Earnings

Generate earnings that are greater than if you were a PAYE employee of a firm. Unlock the potential to earn more as a Surveyor even if you are newly-qualified.

Greater Flexibility

Benefit from significant flexibility and control over your own hours. Create a work/life balance that aligns with your individual priorities and aspirations.

Low Risk

Reduce your risk by teaming up with an established brand that books your clients, provides umbrella PII cover, and reduces your start-up and operational costs.

More Support

Benefit from decades of surveying experience and access to a supportive and encouraging team to help you with everything from defects diagnosis to client care.

"It's a win-win hybrid between being an employee and starting your own practice."
